Update account details, such as contact information, through our online form

Access your energy usage information: view your daily usage and see how you're doing compared to your neighbour

Billing & Payment Options

PAPERLESS E-BILLING Join the thousands of customers who have enrolled in paperless e-billing for an easier way to manage your bills and monitor energy usage. Register today at MyMetergySolutions.com.

PRE-AUTHORIZED PAYMENT PLAN (PAP) is an easy and convenient way to pay your bill. With PAP, the amount due on your bill will automatically be withdrawn from your bank account, avoiding any late payment fees. Sign-up at MyMetergySolutions.com.

PAY THROUGH YOUR BANK in person, by calling in or through online banking. Phone and online payments should be made to 'Metergy Solutions Inc.' and include your 10-digit account number, shown at the top of your bill.

Understanding Your Charges

ELECTRICITY This is the cost of the electricity supplied to you during this billing period and is the part of the bill that is subject to competition.

DELIVERY These are the costs of delivering electricity from generating stations across the Province to your utility then to your home or business. This includes the costs to build and maintain the transmission and distribution lines, towers and poles and operate provincial and local electricity systems. A portion of these charges is fixed and does not change from month to month. The rest are variable and increase or decrease depending on the amount of electricity that you use. The delivery charge also includes costs relating to electricity lost through distributing electricity to your home or business.* Your utility collects this money and pays this amount directly to its suppliers.

*When electricity is delivered over a power line, it is normal for a small amount of power to be consumed or lost as heat. Equipment, such as wires and transformers, consumes power before it gets to your home or business.

REGULATORY CHARGES Regulatory charges are the costs of administering the wholesale electricity system and maintaining the reliability of the provincial grid.

NOTE: For a detailed explanation of electricity terms, please visit www.oeb.ca.

1HST Charge (Reimbursement)

Metergy is not the provider of electricity, water, gas and/or thermal to you or your building and, as such, is not required to collect and remit HST on any electricity, water, gas and/or thermal charges.

For residential units, the HST amount shown on the bill represents an amount that was payable by your building to the provider of electricity, water, gas and/or thermal and it does not constitute an amount that Metergy is collecting as HST. Accordingly, Metergy is merely recovering, on behalf of your building, an amount equal to the HST that was payable by your building in relation to your electricity, water, gas and/or thermal consumption.

For non-residential units, Metergy is collecting the HST that is payable by you on electricity, water, gas, and/or thermal charges, as agent for your building.

Your Electricity Charges

Electricity Usage

168.1800 kWh @ \$0.0931 / kWh \$15.66

Delivery \$25.09
Regulatory Charges \$0.67**Your Electricity Charges Subtotal** \$41.421HST 13% - #86296 8880 RT0001 \$5.38
